November 17, 2003

Supreme Court Clerk  
P.O Box 30052  
Lansing, MI 48909

Dear Supreme Court Clerk:

Heard your working on case rule # 2003-47. The Michigan constitution as well as The US constitution make it clear the judges are not to make law but rather interpret the law. Why is the MI supreme court even considering taking steps that would effectively change the state law by denying MI asbestos disease victims their right to a jury trail. If you have not seen a dying patient with late stages of asbestos in the lungs I suggest you visit a hospital.

Good people are being killed slowly. When someone kills another person I thought its murder. The judicial system was put in place to enforce the laws & rights of people. If you forgot what the judicial system is, its for the administration of justice. God bless America

Sincerely,

Ray Gonzalez  
Grieving family member
